

NOTICE

Construction of the Beddington Trail NW & 11 Street NE Improvement Area **began in July 2023**. In this area, improvements will be made to the Beddington Trail NW & 11 Street NE interchange, and median widening work will be undertaken from Airport Trail to just south of this interchange. These improvements will help ensure current and future traffic needs are met, and travel times and overall safety are improved for the travelling public once completed.

Please be advised that travel times to and from your home and/or place of work may be impacted while construction is ongoing.

When travelling on Deerfoot Trail is required to reach your destination, it is recommended that you plan ahead and give yourself extra time. Members of the public who choose to take alternative routes while construction is ongoing are reminded to be mindful and drive to the conditions of their alternative route.

WHAT IS HAPPENING?

OVERNIGHT WORK

Overnight work will be undertaken as required to minimize impacts to traffic during peak hours.

SPEED LIMIT REDUCTIONS

Speed limit reductions will be implemented as required, please obey posted speed limits and on site signage.

INTERMITTENT LANE CLOSURES AS REQUIRED

Intermittent lane closures will be implemented as required, when possible, lane closures will occur outside of peak hours to reduce impacts to traffic.

HOW CAN I STAY UPDATED?

Updates will be provided on the [project website](#) as they become available.

Those interested in signing up for email updates can subscribe by visiting the ["Stay Informed"](#) page on the project website.
